FOR IMMEDIATE RELEASE:

Mutant Games is proud to announce the release of his new iPhone and iPod Touch game today! **Farts VS Zombies** is a simple and addictive game where you defend Japanese school-girls from zombies, guiding fart clouds by dragging them. "I think people will get shocked by the fool and **absurd story**" said Daniel Fernandez, CEO of Mutant Games. "The game **combines many genres** that are overseen on the App Store, I hope that FVZ will help to make developers, press and players aware of the abuse of these clichés, so they can develop, write about and buy more innovative games."

A mysterious **Evil Unicorn** seems to be the cause of the zombie virus, meet up with your old friend Banana Max and together, you will crush the zombies to free the town from The Evil Unicorn. Farts VS Zombies has both a Survival Mode and a Story Mode and it features **Open Feint** and **Game Center**: Beat challenges, win **achievements** and track your score on the global on-line **leaderboards**, you can even challenge your friends and submit your scores to Facebook and Twitter.

You can get this **surprising addictive** game now on the App Store at only **\$0.99!** Launch offer for limited time only. Do you feel bloated? Play Farts VS Zombies for good digestion!
